Model series	Move-Table Puzzle
Description	Puzzle-High table
Model	1856C
ID	75229
Length/Width/Height	178/115/100.7 cm
Weight	57 kg

Tabletop: puzzle-shaped, circulated with equal radii (R 35 cm), panel thickness 12 mm, of high-pressure laminate (compact board) with melamine resin top layer.

Shelf: puzzle-shaped, (top edge) at 71.3 cm above floor level.

Framework: 4-base metal apron framework of powder coated steel tube, base cross section 38/2 mm, floor gliders with felt gliding surface.

Notice: Due to the all-round equal radii of the tabletop, the table can be combined with other puzzle tables at all tabletop positions.

Changes and errors reserved. Illustrations similar.
